E-mail: _____

I _____, agree with the Goals of the Oldman Watershed Council on the attached page. The Council has an obligation to conduct its business in an effective and efficient manner. This cannot occur in the absence of member participation. Members must clearly recognize and understand that the expectation is that they will take an active role in Council operations (e.g. project support, communications, fundraising, administration).

MISSION

To maintain and improve the Oldman River Watershed through partnerships, knowledge and the implementation and integration of sustainable water management and land use practices.

GOALS

The Oldman Watershed Council will integrate its activities through knowledge, research, partnerships and education as they relate to water management, water quality, and land-use practices in the following key areas.

1. Provide responsible information and input into water management planning activities that reflects the needs of all partners and residents in the Oldman River Watershed.
2. Increase awareness and understanding of the Oldman River Watershed among residents and stakeholders and encourage commitment and responsibility for water quality and water use.
3. Refine and expand knowledge of water-related conditions and processes throughout the Oldman River Watershed.
4. Promote sustainable land use practices that protect the watershed.
5. Reduce contaminants, such as microbes, nutrients and pesticides, entering surface water and groundwater in the Oldman River Watershed.
